

Vacancy Description

- You will be an Apprentice service and diagnostic motor technician in a busy workshop environment.
- You will carry out tasks relevant to maintaining and repairing motor vehicles.
- You will also be partly responsible for maintenance of the workshop environment.
- As part of your training you will attend our Vauxhall Apprenticeship technical centre in Nottingham for block release training. (Accommodation & transport costs will be covered by your employer)

Training to Be Provided

- Training consists of 17 weeks block training over a 3 year period with the remainder of your time being spent at a Vauxhall retailer where practical training and guidance will be provided.
- You will be working towards an Advanced Apprenticeship (Level 3) along with Functional Skills in Maths, English & ICT at Level 2.
- You will also work towards Vauxhall internal qualifications via My Academy Bronze & Silver courses.

Skills Required

- All we ask is that you are committed to the Apprenticeship Programme for 3 years and have the passion and ambition to grow into a highly skilled Car Service Technician.
- Work experience within the industry would be advantageous.

Qualifications Required

GCSE Grades A-C (or equivalent) are preferred but other candidates may apply.

Personal Qualities

- Team orientated
- Good communication skills
- Positive outlook
- Willing to learn and follow instructions
- Evident interest and enthusiasm for automotive vehicles and the industry

Things to consider

- Must live within a realistic commutable distance of the vacancy (This will be dictated by the Employer)

Important Other Information

- Must live within a realistic commutable distance of the vacancy (This will be dictated by the Employer)

Future Prospects

Possible career progression opportunities include Master Technician, Service or Aftersales Department Management or even dealership management.

Monday - Friday (Occasional Saturdays)
